

28 September 1953

MEMORANDUM FOR: Colonel White

1. I should like to point out several aspects of the recommendations in the attached two staff studies, which [REDACTED] advises me reflect the wishes of the DDCI as regards cable communications of the audit and medical offices.

25X1A

2. In audit cables, the sensitive indicator [REDACTED] which requires "Eyes Only" handling, is used only for reports which the Senior Representative should not be permitted to see. In medical cables, the sensitive indicator [REDACTED] is used for all sensitive and technical matters. The other indicators, [REDACTED] for audit and MEDIC for the Medical Staff, are routing indicators which assist the Cable Secretariat in identifying the action party.

25X1A

3. The present Medical Staff cable procedure requests the Chief, Medical Staff, to advise the Director of all medical matters which, in his opinion, are sensitive; whereas, the proposed procedure makes the Office of the Director a distributee on incoming [REDACTED] cables and a releasing officer on outgoing ones. The Chief, Medical Staff, has not reviewed the proposed procedure.

25X1A

4. Recommend three signatures.
